

Alyon Technologies, PO BOX 2562 Secaucus, NJ 07096, Ph#201-865-7600, charged me for services - \$190.17 I never used or authorized. They use pop-up ads to automatically attached to your system and charge. Even when you think you've denied or "X" out of the box it still automatically takes over your PC and downloads. My son was on the "www.foxbox.com" kid's site and I watched this happen. Please refer to other complaints from consumers on "www.ripoffreport.com", we all CAN'T be liars and making up the same consistent story. Please stop these people and prosecute. Thank you.
